PROFESSIONAL ACTIVATING OUR PROFESSION

CREDIBILITY

ACTIVATING

FRPA's 2023-24 Board of Directors has identified three major action areas to concentrate the Association's efforts: Activating our Professionals, Activating our Profession, and Activating FRPA's Influence and Credibility. In order to activate the Association in this way, volunteers are needed to help work in goaloriented groups over the coming years. While they also affect each other, these three bold actions have different strategies linked to them as well. Below, you will find the strategies with goals for each of the three major action areas. Please consider how you can impact the future of your association through your expertise and interest. The board is looking for activation from all levels within the field.
